

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A coated transparent plastic film (2), ~~characterized in that the thickness of~~ **comprising a plastic film and at least one layer applied to the plastic film, wherein** the at least one layer ~~applied to the plastic film (2)~~ varies locally **in thickness** in order to depict an image.
2. (Currently Amended) The coated transparent plastic film (2) of claim 1, ~~characterized in that~~ **wherein** the at least one layer comprises polymers which are or have been colored.
3. (Currently Amended) The coated transparent plastic film (2) of claim 2, ~~characterized in that~~ **wherein** the layer is formed from blended polymers.
4. (Currently Amended) The coated transparent plastic film (2) ~~of any one of the preceding claims, characterized in that~~ **according to claim 1, wherein** at least one layer is self-adhesive.
5. (Currently Amended) The coated transparent plastic film (2) of claim 4, ~~characterized in that~~ **wherein** the self-adhesive layer is designed such that its structure is destroyed when the layer is detached from an attachment surface.
6. (Currently Amended) The coated transparent plastic film (2) ~~of any one of the above claims, characterized in that~~ **according to claim 1, wherein** the layer comprises ultraviolet pigments.

7. (Currently Amended) A method of producing a coated transparent plastic films ~~(2)~~ ~~having at least one layer, characterized by~~ film according to claim 1, said method comprising applying to the transparent plastic film the at least one layer with a locally varying layer thickness in order to depict an image by means of the varying layer thickness.
8. (Currently Amended) The method of claim 7, ~~characterized by~~ which further comprises coating of the plastic film ~~(2)~~ with polymers which are or have been colored, or with blends thereof.
9. (Currently Amended) The method of claim 7, wherein ~~or 8, characterized in that~~ the at least one layer is self-adhesive.
